FUNDRAISING & SHARE HOURS AGREEMENT

Tuition alone does not cover all of the necessary resources needed to operate Sacred Heart Catholic School. The actual cost to educate one child at our school for a year is approximately \$8,500. This means that the school must raise an additional \$2,000 per student. The success of Sacred Heart School depends on the faithful involvement of the school community. We rely on the parents of our students to provide resources which are not covered by tuition. It is important for parents to be involved in the educational process, provide educational assistance and fundraising support. Thank you!

There are several major fundraising events that require participation from every family. In order for the school to meet its annual fundraising goal, which is needed to support the daily operations of the school, each family is required, at a minimum, to:

Support the School's Annual Fund Campaign.

Sell \$100 worth of raffle tickets for our Oktoberfest.

Volunteer for a minimum of three hours on the day of the Oktoberfest (*this may be done by a friend if parents are not available on this day*)

Each family at Sacred Heart School is expected to volunteer at least 15 hours of service to the school a year. The hours spent in performing the following types of activities qualify as meeting the mandatory Share Hours requirement. Being active in the school is a great way to meet other families and establish lifelong friendships.

A few examples of the many ways to serve are:

- *Room parent
- *Helping in the library
- *Active participation in the PTO
- *Serving as chair/co-chair for Oktoberfest
- *Actively volunteering at a fundraiser
- *Bringing flowers for Mary
- *Helping with campus maintenance
- *Assisting a teacher in the classroom
- *Helping with class parties
- *Cleaning /organizing areas of the school
- *Mother/Son Bowling
- *Father/Daughter Sweetheart Dance
- *Planting flowers in the garden

A Share Hours Register is located in the administration office for logging hours. Keeping track of Share Hours beyond the required 15 is important since it demonstrates the commitment of families to the success of the school. This is important information for the community and for potential donors. ALL Share Hours must be logged. If family is unable to fulfill their obligation of 15 Share Hours, the family is required to pay for the remaining hours at the rate of \$20 per hour.

I understand and agree to the requirements of Sacred Heart Catholic School Fundraising and Share Hours Agreement.

STUDENT TB QUESTIONNAIRE

Name of Child _____ Date of Birth _____

Tuberculosis (TB) is a disease caused by TB germs and is usually transmitted by an adult person with active TB lung disease. It is spread to another person by coughing or sneezing TB germs into the air. These germs may be breathed in by the child. Adults who have active TB disease usually have many of the following symptoms: cough for more than two weeks duration, loss of appetite, weight loss of ten or more pounds over a short period of time, fever, chills and night sweats.

A person can have TB germs in his or her body but not have active TB disease (this is called latent TB infection or LTBI). Tuberculosis is preventable and treatable. TB skin testing (often called the PPD or Mantoux test) is used to see if your child has been infected with TB germs. No vaccine is recommended for use in the United States to prevent tuberculosis. The skin test is not a vaccination against TB.

We need your help to find out if your child has been exposed to tuberculosis.

Place a mark in the appropriate box:	Yes	No	Don't Know
TB can cause fever of long duration, unexplained weight loss, a bad cough (lasting over Two weeks), or coughing up blood. The goal of a Catholic Education is to ignite in each student a curiosity that fosters a love of learning, recognizes the importance of prayer, develops a relationship with God, respects human life and becomes a steward of the church in giving of time, talent and treasure.

Curriculum Instructional Strategies

All grade levels are taught using appropriate age development strategies ranging from small group instruction, peer tutoring, independent learning, exploration, discovery techniques and hands on activities. The use of manipulatives, integration of technology, science experiments, connections and applications provide opportunities for students to develop a sense of logical, sequential thinking and problem solving processes in curriculum to aide in making real world connections in Science, Technology, Engineering, Math, **(STEM)** literature genres and social studies.
